

Suraj Deshmukh

Team Lead · Software Engineer

“ 8 years and 2 months of experience building scalable web apps and modernizing frontend systems to delivering Angular & .NET solutions, mentoring developers, leading technical design work, and architecting large-scale systems.

Work Experience

Team Lead

Sodel Solutions · Navi Mumbai

May 2022 - Present

Projects: YES Pay Suite, DeriviumData, GSB Bookings, HAMMER

- Developed enterprise applications from scratch, migrating YES Pay Assist and YES Pay Hub from a JHipster monolith while upgrading Angular applications from v8 to v21 across the YES Pay Suite.
- Implemented security features including route guards and client-side access control protections.
- Mentored developers through code reviews, debugging support, and technical guidance; conducted technical analysis and R&D based on client requirements.
- Refactored APIs, introduced form validations, maintained clean code standards, and participated in Agile ceremonies and sprint planning.
- Led development of GSB Bookings featuring event bookings, payment gateway integration, and an admin portal.
- Contributed to HAMMER by migrating a FoxPro application to .NET with a JavaScript frontend.

Senior Software Engineer

MITS Global Consulting Pvt. Ltd. · Mumbai

May 2021 - May 2022

Projects: PLUM, SWIFT (Enterprise platform)

- Contributed to the development and maintenance of Angular-based enterprise applications, with regular deployments and collaboration with internal teams and external partners for ongoing support.
- Upgraded the SWIFT application from Angular v9 to v11, redesigned the user interface, and resolved existing bugs to enhance application stability and performance.
- Worked across the full stack using Angular v6 and v11, .NET Web API (Framework v4.5.2), SQL Server 2016, and MongoDB, ensuring efficient data handling and a seamless user experience.

Software Engineer

Green Point Technology Services (I) Ltd. · Navi Mumbai

Feb 2018 - May 2021

Projects: TG Campus, CMS (EdTech solutions)

- Developed and enhanced EdTech and CMS platforms using Angular (v5 to v11), .NET Web API, and SQL Server, contributing significantly to new feature implementations and improvements.
- Participated in end-to-end sprint activities including requirement analysis, HLD/LLD creation, development, testing, and deployment.
- Optimized application performance through lazy loading and Progressive Web App (PWA) implementation, while delivering new features in a sprint-wise manner.
- Actively handled build and release processes.

Education

Post Graduate Diploma in Advanced Computing

Centre for Development of Advanced Computing (C-DAC), Mumbai

2017 - 2018

Bachelor of Engineering - Computer Engineering

Pillai HOC College of Engineering & Technology, University of Mumbai

2013 - 2017

TECH STACK

Angular v21

TypeScript

PWA

Angular Material

JIRA

Git

.NET Web API

MS SQL

MongoDB

AWS

Azure DevOps

CI/CD Pipelines

HIGHLIGHTS

- Led major Angular upgrade projects using a step-by-step approach
- Created secure financial applications that deliver real business value
- Guided developers with code reviews, debugging support, and best practices
- Made applications faster, cleaner, and easier for users to work with
